

Introduction and how "dynamic subdomain" url addressing is identified and processed by Google

My name is James Martin Driskill and I am currently living back in my hometown actually returned once again to be living in the family home since I was age 5. I am age 53. My tech credits include that when I was 18 I programmed and coded from scratch two separate BBS [Bulletin Board System] with dialup access. One was running of course from my home. But the other one, which makes this introduction of who I am unique, was for the San Bernardino public library in a volunteer project before actually becoming employed as computer lab staff. I appeared in the San Bernardino Sun Newspaper in a two-page article.

Page 1: <http://realuphuman.net/Item-Proofs/HISTORY-Driskill/SB%20Sun%20-%20Home%20Computers%20can%20'TALK'%20to%20library.jpg>

Page 2: <http://realuphuman.net/Item-Proofs/HISTORY-Driskill/SB%20Sun%20-%20Home%20Computers%20can%20'TALK'%20to%20library%20%5bpg%20%5d.jpg>

and when I say what I say, I mean what I say. It is reinforced that the story I say is true, because of the domain that I say it through.

i appeared in the publication of Library Journal and the PDF formatted issue is stored therein that same directory. Are you getting the picture yet?

<http://realuphuman.net/Item-Proofs/HISTORY-Driskill/Public%20Access%20Microcomputer%20Services%20in%20Public%20Libraries.pdf>

I also have to my credentials, that I was a former Notary Public and how that applies to "document integrity" on executed signatures can also be placed into a weighty truth here on my character and intentions.

<http://realuphuman.net/Item-Proofs/HISTORY-Driskill/NotaryCertificate1077638%5bfull%5d.jpg>

Enough on introductions. Are you getting a point of reference to the level of anti-fake news that I represent in all that I do? But the haters will come out of the woodwork now, and attack me for holding the internet domain sets I do indeed own. What have I done individually to them that creates this hate paradigm? Absolutely nothing if they themselves are acting "morally straight" like what a boy scout hold's as a model of conduct onto our community. Yes, I too was a boy scout. But if others are acting badly, how dare I own something that could indeed expose the truth to our world. How dare I? Because of the model of peacebuilding that I define, is actually the rational reality to how to deal with these kinds of people in the improvement of augmented conscience and the nullification of hate. If only Google would actually take the time to understand the informational theory I am using and allow multiples indexing for different pointing sources to the same content that is available by use of "dynamic

subdomain" URL addressing. They apparently only index one entry pointing to the same file source. All others are dropped as duplicate content. But the content that is not duplicated is in the URL addressing itself. This needs to have some adaptive thinking placed onto the valid entries so far placed at open defiable namespace up to 260 or so wordings separated by dashes and spaces. A few other rules exist. The technology has been active for over 10 years and there is nothing wrong with that spec. It is because of memetics that I use it on my domain spaces, called memespace.

When it gets activated on webdomains -- most admins complain about its active use. Sorry, it is a spec and Google handles the spec out of necessity that it is valid. But to apply the multiple pointer influences, is to honor why I also own fuckeduphuman.net and gruwup.net ontop of realuphuman.net. It is called a triad trust ladder. Why this is so important to fix in our society relates to a Washington Post article that appeared Oct/2017.

How the Erosion Of Trust Leads To Murder and Mass Shootings

https://www.washingtonpost.com/outlook/how-the-erosion-of-trust-leads-to-murders-and-mass-shootings/2017/10/06/382cc4b2-a91e-11e7-92d1-58c702d2d975_story.html?utm_term=.fb4e0d5cdb57

And the fix for this is found in understanding the role of technology in moral agency and moral responsibility, a paper from plato.stanford.edu that has been long standing a role guidance of the information technology industry. I have something to say about a course correction need in our society. Will you let me into your forums or will you hate on me?

Perhaps I'm daft, but I'm not seeing why you think you will be attacked.
And I'm not completely understanding the point about dynamic subdomains. Are you saying that if an identical article were to be found under an unlimited numbers of URLs, that they should all be indexed?

Being hated on.... let's try to answer this --- forum moderators don't like to be challenged when they might disagree with someone's post. They just blindly go and restrict the letter power me and move on with their day. Not realizing that blocking and censorship are doing. By not allowing dissent to move forward, there is the tendency to not hold a full spectrum of life diversity. The proposal that I proceed to offer is something a bit out of the box. That by itself neither supports nor rejects such a proposal. But that is not what happens because I am misunderstood and not given a chance to give a foundation and then apply the building blocks onto it --- I would rather not attempt to build a house of cards that at the will and demand to blow a big bully tantrum to hate something I am doing, because no one else can --- blow the house up in ignorance because the moderator will never actually get his way. It does not bother me that I am not received. I know the technology works no matter who or what wants to blow blow blow the house away. The wolf cannot blow away the brick house but I can still blow blow blow away the blue of fucked up humans. [a play on words against the 3 little pigs and a written text "Why is the clear sky blue? poetic words from InTheMindway" -- and that is a fact. I will leave this announcement of my presence here to

ponder its sanity of progression -- part 1 answered detailed --- will I attract the haters? --- will they come out of the woodwork to support each other' even if that is an attitude they support themselves as complete strangers when the hate in them is their common bond? They know who they are that I reference. They know who they are to each other. Why? is found in the science application to memetics.

>They just blindly go and restrict the letter power me and move on with their day. Not realizing that blocking and censorship are doing.

Nothing you have written on this forum has been altered in any way. Nor have you been restricted.

That said, this forum is open to all people, without any restriction as to location or age. In fact there are a number of webmasters that are considered minors in the US as well as their country of origin.

I mention the openness of this forum to minors to remind you that the profanity in your 2nd post may cause this thread to be flagged for abuse of terms of the forum and eventually be removed from the web.

You may choose to edit your post and continue with your discussions as you wish.

I am obviously talking about my experiences on other forums. I am making a statement of unacceptable intolerances that should not occur here. Do I want attention here? Not really, but if I don't place this kind of preclusion of the way I have been/will be treated here, then whoever is lurking in the shadows [if any] will leave me alone when the time comes they think they can swipe me away. That is all I am attempting to prevent. Because, as if I need to realize, we are all human and have imperfections.

James,

You've entered a forum where many folks come as a last resort and are stressed and desperate due to poor performance of their website which often provides their livelihood income. Tempers flaring is common and frequently the guidance we provide isn't what people really want to hear.

That said, the volunteers here do so because every single one of us cares. We have great empathy and tolerance even in the face of abuse. None of use wish to mistreat anyone who enters this forum and we know developer and marketing skills vary greatly so there is great demand for free assistance. Personally I often get more satisfaction out of assisting people here than when I'm paid for similar work. While data we have access to is often very limited, it is a great feeling to be part of a complex turn around story even when there is no "thank you" that results from it.

I hope being able to share here safely has helped you in some small way.

Thank you for the expansive welcome here --- I feel a little bit better at ease to be able to express myself --- to be myself -- and to be free in that expression --- I am in no way insulting anyone get into the logic.

You see -- if I just assume everyone is on the good side, it does not turn out that way.

And no one can see the experiences that I have been through.

But if i have a problem in this forum based upon my attempts to describe and define the foundation of

what this is about --- because when one takes the understanding forward -- it is a way of rebuilding our society and taking out those who are not really contributing to the betterment of our society but are a part of breaking trusts, breaking commitments, breaking honor.

When a collective erosion of this trust reaches its breaking limits, we are already experiencing these in our society [At Least in The United States]:

Take consideration that the recent decision by Google to shut down Google+ is a further detriment to building unity in community unto our society. What is happening in the emotional collective memetics of trust and/or mistrust was highlighted in a text I wrote and posted to LinkedIn 15 months prior to the appearance of the Washington Post position matching the same.

My introduction to my technology is also found in that address. It is my community peace building address #06 and #06A : Please Approve Media Player Popups. Now when you listen, listen from a person who is not a hater.

If you are a hater you might not want to relate and consider the possibilities of this technology hitting reality at full stance.... because it might just be the technology that takes and exposes your hate and nullifies you to continue in your hater way..... My plans are to be able to interface privately to parties who are involved in a conflict. But only time will tell.

The technology still remains active without a user interface.

Repairing "Difficult" Patient-Clinician Relationships

Denise M. Dudzinski, PhD, MTS and Carrol Alvarez, MS, RN

Conclusion

Clinicians readily accommodate patients' physical disabilities, but they might neglect to take into account patients' deficits in social and life skills or thorny personal styles. The latter signal the need for different kinds of accommodations. Patients' personal histories may influence their expression of distress, communicated in ways that complicate their ability to receive necessary care. When a clinician encounters a patient whose behaviors are disruptive and distressing, a step back for reflection can provide a shift in perspective.

The basis of trust in the patient-clinician relationship is a fiduciary obligation to protect, respect, and heal vulnerable patients. The patient-clinician relationship is inherently unequal, and the physician marshals her knowledge and power solely to aid the patient. Consequently, clinicians always have more responsibility to repair and rebuild the relationship than patients. The strategies discussed here can help clinicians do just that.

This matter is expanded more than just a single interfaced patient to provider. THIS MATTER IS ABOUT THE COLLECTIVE EROSION OF TRUST OCCURRING IN THE HIV/AIDS FIELD INDUSTRY OF TREATMENT AND SOCIAL SERVICES. WHAT IS HAPPENING ON THE FLIP END SIDE OF THIS SETUP STRUCTURE IS:

How The Erosion Of Trust Leads To Murder and Mass Shootings [Washington Post Oct2017

Now as a foundation, I have a justified reason to place content within the specification of this syntax:

<http://firstname.middle.lastname.fuckeduphuman.net> [This link hits the root of the domain]

Which this content, even if it has no direct sub-domain pointer assigned to it, actually is placed to the google index. You can perform your own searches. The index works with or without actual subdomain defines for my domains content. Examples are - Google Search Results:

[Index of / - emoji.muckeduphuman.net - fuckeduphuman.net](http://emoji.muckeduphuman.net)

I am sure that I have missed a couple of subdomains in this list. NONE OF THESE PEOPLE CARE THAT THEIR NAMES ARE MENTIONED ON THE WORLD OF THE CYBERSPACE AND CARRIES FORWARD A DISCUSSION REALUPHUMAN HONEST WITH ME TO BREAK THIS CONSPIRACY! NO ONE IS THAT SHALLOW TO ALLOW THEIR NAMES TO BE PLACED INTO THIS REFERENCE DIM WITTEDLY. THIS ABSOLUTELY NEEDS SOME KIND OF HIGHER AUTHORITY THAN I JUST LIST TO OUR CYBERWORLD TO BREAK THIS CONSPIRACY. THIS MATTER DOES NOT MAKE ANY RATIONAL SENSE.

NOTHING LISTED HERE IS UNTRUE.

I WANT GOOGLE TO NOTE THE REFERENCES OF MY DOMAINS IN THE INDEX AND THIS DOES NOT COMPEL THEM TO RESOLVE THE MATTER WITH DISCOURSE? RIGHT.... SOMETHING SO SINISTER IS IN THIS --- SOMETHING SINISTER! A BIG HUGE SCRATCH ON THE CHALKBOARD WITH FINGERNAILS IS IN ORDER HERE. THIS IS ABSOLUTELY AN ILLOGICAL PLAIN OF EXISTENCE

Go be haters someplace else that the logic that is established here over-rules such statements above as some kind of violation of rules. IN FACT, since it is my domain, and it is surface web indexed for purposes of reasoning a way to conduct a binding knot --- [see African Adinkra #Mpatapo] and the information that defines the reasoning foundation why the F Word is being used here in the first place. AH HA, Caught ya --- I am breaking the rules, but logically rules such as this one need to be broken.,

This is a "Feedback" that was generated by using the very bottom button and was sent to Google. Read the premise on why some of these customs need to be broken --- because they are not working people!

Sorry, no reason for all that excitement.

Your post has only been marked as a non-issue, which it is (to us at least)

[James Driskill](#) [Original Poster](#)

3/14/19

It is not a non-issue -- what is posted here relates to the "search results" that are found by the indexing of content such as this support help --- with dynamic subdomain presence defined and applied. That is the exact issue that this content serves. And that direct identifies Google for being an assistant in why no one takes the seriousness of an issue as it relates to deaths occurring in the community. So you can mark away I have a copy of this thread and will file it accordingly.

[James Driskill](#) [Original Poster](#)

The excitement is that you are attempting to justify yourselves to remove the content that is expressed here -- when in fact I have provided the full and complete foundation to why it is relevant. but you have not yet taken yourself to review the feedback to Google.... the missing piece of "moral responsibility" onto an issue that happens to be extremely serious. DEATHS occurring in the Community by mass shootings. Just read the content complete and link to the external sources of reference. But haters with an agenda do not educate themselves with links -- they refuse to see the world outside of their own view and --- delete --- anything or anyone they dislike --- and they get into positions of power --- and all praise their actions --- but that is not the road of this discourse. It is saved and will be filed accordingly. I shall be here because this topic allows me to discuss "search console" on how this exact content with "dynamic subdomain" address is handled by Google. that is the foundation of this content and I remain on topic ---- you remain unfocused of interest because you have a hate agenda to remove my influence in the community.

The forum monitors, what Google names PE (Product Experts) do NOT have the ability to remove threads.

The only people with those abilities are Google Employees who remove posts (or entire threads) when the post/thread serves no meaningful purpose OR is abusive or otherwise violates the TOS.

For this forum, as long as the thread is fundamentally about a website and it does not violate the standards established by Google, it will not be deleted.

This is the complex situation at hand here --- you see --- I created this thread for the sole intended purposes to provide a "external sandbox" space to provide the technical details that I own a particular technology tool that is being used to document a hate and harassment campaign targeted against me that continues onto this day.

It is a conspiracy that is exposed in the Ryan White Care act social services that is actually a nationally scope systemic problem. However that may lie across the entire nation, my very own regional interfaces to social services has events that I have documented to the web using my active "dynamic subdomain" url addressing that is indexed onto google results.

What I need is the involvement of Google to provide a higher reaching resource of "moral agency" in that I have been the subject of continued silence and disservice in my interface to social services and doctor provider care. This situation is provable by knowing that I have documented the event to event circumstances throughout a 10 year period of time. It would not become evident that the hate source is the actual leadership/directors of the non-profit Ryan White Care Act funded social services agencies until recently. This under the CDC HRSA HHS and other governmental administrative agencies of the Ryan White Care Act policies that have turned a blind eye to this abuse. It does not matter whether or not this thread remains open --- but it will - for any so-called violations of language considering the logic involved in the naming of the document record under the domain web presence of [<http://fuckeduphuman.net>] --- it cannot be changed to some other censored expression of a digital object.

My interface here documented to the censorship that I received on LinkedIn in the removal and deletion of my posts and then onto my support ticketing at LinkedIn that I finally had the all-out fight to get validity there --- for they placed a "hack" into the processing code of the supporting ticketing creation system that locked my screen [individually] from proceeding to create a ticket. When I threatened that I was going to pursue a lawsuit of discrimination individually, they backed up --- allowed new ticketing to be created and so far they have allowed me to continue to be a presence on their site to the exposure of this conspiracy that can be proven by outside datasets of information records across the web that I did not author. I am just the messenger in this case --- and everyone who does not hold this truth but wants to refute such truth is a hater that wants other haters to win this informational warfare --- I WIN THE WAR OF TRUTH!

NOW WHAT TO DO ABOUT THE CORPORATE SOCIAL RESPONSIBILITY TO CORRECT THIS CONDITION IS BEING PLACED UPON GOOGLE.

TO THOSE IN THIS THREAD ----- YOU SEE THE GANG STALKING DOES CONTINUE ----- I HAVE BEEN TAKEN THROUGH THE WRINGER IN THE PAST ----- AND --- IT IS NOT GOING TO HAPPEN AGAIN!

TWO SUNDAYS AGO MY CAR WAS STOLEN [I HAVE VIDEO CAPTURE OF THE CAPER]. WHAT I MEAN HERE IS THAT THIS TOPIC AND CONSTRUCTION OF INTRODUCTION HAS FINALLY COME TO PASS --- I AM NOT PARANOID OR CRAZY --- CRAZY CRAZY ME THINKING I COULD CHANGE THE COMMUNITY TO STOP ATTACKING ME ONCE MORE THERE IS SOMETHING TO READ IN ALL OF THIS.

MY CAR WAS TAKEN SEVERAL BLOCKS AWAY AND ABANDONED JUST LIKE BEFORE. THIS HAS NOW HAPPEN 3 SEPARATE TIMES IN REFERENCE TO A CONTENTIOUS RELATIONSHIP WITH THE RYAN WHITE CARE ACT SOCIAL SERVICES.

BUT

THE SAN BERNARDINO POLICE DEPARTMENT WILL NOT INVOLVE THEMSELVES!
THE FBI WILL NOT INVOLVE THEMSELVES!

I have an AUDIO ADDRESS that is 3 min and 27 sec long titled: "What If?" --- can you open it --- listen to it

--- reflect that a 2003 Honda Civic LX is not some car theft for the car --- the reason for the theft was to relay a message ---- that message "SHUT THE FUCK UP!" BUT THIS TIME I DO BELIEVE THE SPILLED GASOLINE INSIDE OF THE TRUNK. I AM NOT SURE HOW TO TAKE THAT --- AS A SIGN THEY ARE GOING TO BURN MY CAR OR SOMETHING.

I AM LEGALLY IN MY RIGHTS TO ---- N O T S H U T T H E F U C K U P ! ATTACKED AGAIN!

Predictable obviously from the constructed content posted in this thread.

Thank you all for listening at first hand ---- what to do now?
