I'm waiting for my social security card to arrive from the social security administration office I have as already requested a duplicate. I lost my wallet with all of my id cards.

I am on Kaiser Permanente medical insurance.

A copy of the screen capture insurance card is attached.

A copy of my California ID is attached.

A copy of my social security income verification letter is attached.

A letter of my HIV diagnosis is attached.

Let me know if all the documents are sufficiently clear enough to read.

I will request letter of hardship from my case manager at Kaiser Permanente tomorrow morning.

DISABILITY AND HEALTH

Disability Inclusion

ABOUT

- Disability inclusion means including people with disabilities in everyday activities and encouraging them to have roles similar to their peers without disabilities.
- Inclusion should lead to increased participation in socially expected life roles and activities.
- This requires communities and organizations to put adequate policies and practices in effect.

Organizations include KP and Lutheran Social Services of Southern California. Be sure to follow links provided in this email. They are safe scanned as safe to browse.

In conclusion after we get the ball rolling on what we expect of each other, listen to this audio narrative in KP's @RealityAudit folder. It is a long address I know. All of what is said there must be said onto light and view for us to proceed like these circumstances matter: they are not fine and represent a hardship to continue. This must be reconciled as best as humanly possible with your assent or the legal aid of a lawyer. What has happened here is real.

My doctor (Doctor Eric Tomoni Shigeno)

TO WHOM IT MAY CONCERN:

Mr. James Driskill has been a client of mine for Individual Psychotherapy since October 30, 2006. He has been attending Foothill AIDS Project's (FAP) "Living Well With HIV/AIDS" men's Support Group on a weekly basis since September 2006. He was self-referred for Individual Psychotherapy.

Mr. Driskill sought treatment for a high level of stress and anxiety primarily regarding his housing situation. He became homeless in Oakland earlier in 2006 and is currently residing with his family and extended Family in San Bernardino.

In addition to his unresolved eviction in Oakland he was not able to secure immediate housing through the AIDS Housing Program in San Bernardino County due to a waiting period for each new applicant. These events resulted in Mr. Driskill experiencing a High level of anger and frustration.

While in both settings of therapy, Men's Support Group or Individual Psychotherapy, Mr. Driskill accepts the fact that he has an upfront, in your face style of confrontation.

The men and I have come to realize that his style is primarily a reaction to his extreme level of frustration and we have learned not to be put off by his style. In these affirming settings he has learned to modify his style of confrontation which should continue to improve. I have also been impressed with how Mr. Driskill has sought out resources on how to understand and to cope more effectively while experiencing an almost complete lack of support from agencies and individuals. One such resource was the book "Please Understand Me: Character & Temperament Types", Kiersey, Davis and Bates, Marilyn.

His Mental Health and HIV Health status were both clinically affected by his housing crisis in Oakland and here in San Bernardino. He is currently responding well to the treatments and his prognosis is good.

However, I believe that until there is an appropriate resolution (he wants an absolution) of his housing conflicts, he will remain in a vulnerable state regarding his overall HIV and Mental Health status.

Sincerely,

Howard, MD Howard. Newsom Phon.

This agency is FRAUDULANT in its services and practices when it comes to serving the HIV population and utilizing Ryan White Funding. My recommendation for any HIV client interested in signing with them is to run as far and as fast as you can...they treat HIV consumers with contempt and unprofessionlism.

This Google review has been updated by Arron Jacobson to current reflect a Change over of staff at the San Bernardino Location.

Now let's baCk to that pest of a restraining order!

With no HIV Doctor for over a year since March 2019, I violated the restraining order by faxing the doctor, Faxing the police and faxing Foothill Aids Project.

The doctor died less than two weeks Later on April 10th. My doctor did not follow His fiduciary and moral responsibility to Find me a new doctor care in his need to remain Silent to coverup an ongoing a vast Conspiracy. Google AI Overview:

AI Overview

In October 2020, the FBI and state police raided Borrego Health and Premier Healthcare offices in connection with a criminal investigation into Medicare fraud.

Explanation

- Borrego Health is a non-profit organization that provides primary and specialty care to underserved communities in Southern California.

- Before the FBI raid, Borrego Health was one of the largest Federally Qualified Health Centers (FQHCs) in the United States.

- In August 2023, Borrego Health was sold to DAP Health, and the two organizations merged.

FYI: Doctor Shigeno is a former employee of DAP Health before he was employed by Borrego Health.

Aftermath

- Borrego Health sued former executives, staff, and contractors nearly two years after the raid.

- Hackers also gained access to email accounts and potentially patient data at Borrego Health.
